*what to say as AGALI AWAMU (Togetherness) group, NABBAALE VILLAGE, we are blessed to have CSU in our area of Makukuba parish, for many years we have been living in abject poverty and un able to care well to our children, but CSU has managed to mobilize us to be in groups from which now we have been supported with an income project of piggery management. We have hoped that we shall be able to meet basic needs of our children, God bless you CUS you are our hope of growth and development.”*

## 3. SUCCESS STORY FROM TUKOLERE WAMU PARENTS - SHG

*A wide smile to you all, TUKOLERE WAMU (Work together) group – KIZIMA village we are saying thank you so much CSU for showing us the way of working together to develop our families and fight poverty. In the past we were working in isolation that is on individual basis, but CSU came and mobilized us to form groups from which they have taught us many things both socially, spiritually, and Economically, They have trained us how to save and invest money in productive projects from the little we earn as members. Out of our group savings, we have managed to buy 67 chairs as our income project from which many people hire them on their functions. Our dream is to buy more chairs and tents. We therefore dedicate our chair project to CSU who have struggled with us to put us where we are now. God reward you more*

*On behalf of my people of Namasengere village, I thank CSU for saving the lives of my people. For many days, weeks, months and years have been pleading from the Government to help our community with safe water, but nothing in vine from them. With a lot of joy I thank CSU for answering our long time prayers for safe and clean water. We now fetch and collect clean water which we hope it’s going to reduce on a number of water born diseases. I therefore request also CSU to thank all the donors who trusted CSU to help us, May God bless you*
